MERT TURKEL

Computer Engineering Student & Software Developer (AI, Backend & Cybersecurity)

Istanbul, Turkiye • +90 538 433 53 82 • turkelmert96@gmail.com • linkedin.com/in/mert-turkel-b1b8a8381 • github.com/mertturkel234 • mertturkel234.github.io/portfolio

PROFESSIONAL SUMMARY

Computer Engineering & MIS student and Software Developer specializing in scalable Go/Python backends, AI-integrated SaaS, cross-platform Flutter apps, and cybersecurity (Rust EDR, AppSec). 3rd Place Winner at Cursor Hackathon, TUBITAK BiGG candidate, IEEE ISTUN KOK President, and certified in AppSec & API Security (CAP V2 with Merit, APIsec Certified Practitioner).

EDUCATION

- **Istanbul Health and Technology University (ISTUN):** B.Sc. in Computer Engineering (2nd Year / Sophomore) | Sep 2025 – Present | Istanbul, Turkiye
- **Istanbul University (AUZEF):** B.Sc. in Management Information Systems (Distance Education) | Jul 2026 – Present | Istanbul, Turkiye
- **American Street English:** B1/B2 Upper-Intermediate English (Oct 2025 – Present, Technical Translation) | Elazig Simya College: Science Track (May 2025)

TECHNICAL PROJECTS

LOOP — AI-Powered B2B SaaS Logistics Platform (TUBITAK BiGG Candidate) | *Go, Python, Flutter, Docker, Voice AI | 2025 – Present*

- **Architected** a full-stack B2B SaaS delivery platform from scratch with autonomous courier-assignment algorithms and a voice-enabled AI Logistics Assistant, advancing to the TUBITAK BiGG & Teknopark Istanbul company formation stage.

UrbanPulse — Privacy-First Smart City Data Platform (3rd Place — Cursor Hackathon) | *Go, WebSocket, REST API, Docker, Render.com | Jun 2026*

- **Secured 3rd Place** at Cursor Hackathon by engineering a GDPR/KVKK-compliant Go backend that irreversibly anonymizes faces and license plates in real time prior to object detection, streaming live telemetry via WebSockets.

CoreSync AI — Autonomous Technical Pre-Sales & API Integration Platform | *Python, FastAPI, Next.js, PostgreSQL (pgvector), Redis, Docker | Oct 2026*

- **Built** an AI-powered B2B API onboarding platform that ingests vendor documentation, generates grounded Python integration code, and validates execution in a controlled sandbox (github.com/mertturkel234/coresync-ai).

LaundroQR — IoT-Based Multi-Tenant Smart Dormitory Laundry Ecosystem | *Flutter, Next.js 15, Supabase (PostgreSQL + RLS), IoT/QR | Oct 2026*

- **Developed** a multi-tenant Flutter mobile & Next.js 15 admin ecosystem enforcing strict PostgreSQL Row-Level Security (RLS) and atomic row locking (FOR UPDATE) to eliminate booking race conditions (github.com/mertturkel234/LAUNDROQR).

SentraEDR & Sign2Voice — Rust Endpoint Security & Offline Edge-AI Mobile Platforms | *Rust, Tokio, Windows ETW, Flutter, TFLite, MediaPipe 3D | 2026*

- **Engineered** SentraEDR, a low-memory Rust EDR leveraging Windows ETW and MITRE ATT&CK heuristics to detect RATs/stealers; created Sign2Voice, an offline Flutter sign-language translator powered by MediaPipe 3D and TFLite.

AeroNode, VitaxRing & Python Automation Suite | *C/C++, STM32, Raspberry Pi CM4, MQTT, Python, Telegram Bot API | 2025 – 2026*

- **Spearheaded** AeroNode (autonomous disaster-relief drone mesh network via MQTT/CM4), VitaxRing (STM32 smart ring for Teknopark Istanbul pre-incubation), and a Python Telegram Bot & Oxford 3000 podcast generator cutting reporting time by 80%+.

LEADERSHIP & EXPERIENCE

IEEE ISTUN Student Branch — President of KOK (Oct 2026 – Present) | Co-Founder & Vice Chair, CyberSec (2025 – 2026) | *Istanbul, Turkiye*

- **Directed** university-wide technical committees as KOK President; co-founded IEEE ISTUN CyberSec and designed/led the university's highest-attendance Capture The Flag (CTF) cybersecurity workshop.

Cybersecurity Industry Panel — Project Leader & Operations Manager | *Apr 2026 | Hosted Coca-Cola Icecek (CCI) Security Architects*

- **Orchestrated** the 'Current Threats & Defense Methodologies' panel from zero to execution, managing speaker relations, stage operations, and campus outreach.

Ecosystem & Executive Leadership Roles | *2025 – Present | Istanbul & Elazig, Turkiye*

- **Warehouse & Logistics Operations Volunteer — T3 Foundation (Oct 2026 – Present):** Execute warehouse inventory management, equipment dispatch, and supply-chain logistics operations for national technology programs and TEKNOFEST.
- **Vice President & Editorial Board — ISTUN TEKNOFEST Club (Jan 2026 – Present):** Manage competition teams and edit the monthly National Technology Bulletin.
- **Brand Ambassador — Teknopark Istanbul (Mar 2026 – Present) & Committee Member — Turkiye Girisim Agi (Jun 2026 – Present):** Bridge student founders with deep-tech incubation programs and co-develop startup project roadmaps.
- **University Ambassador — Genc TUYAFED (Mar 2026 – Present) & Ops Coordinator — Karabalik AVM (Prior to Sep 2025):** Led inter-university technology networking events and high-pressure floor operations / crisis management.

TECHNICAL SKILLS

- **Languages & Frameworks:** Go (Golang), Python, C, C++, Rust, Dart, Java, TypeScript, JavaScript, SQL, Flutter, FastAPI, Next.js, React, Tailwind CSS
- **Cloud, Data & Security:** PostgreSQL (pgvector, RLS), Supabase, Redis, Docker, REST APIs, WebSocket, Linux/WSL, AppSec (CAP), API Security, MITRE ATT&CK, Wireshark, Burp Suite
- **Hardware & Developer Tools:** STM32, Raspberry Pi CM4, MQTT, TFLite, MediaPipe, Git/GitHub, GitHub Actions, VS Code, Cursor, Android Studio, IntelliJ IDEA

CERTIFICATIONS, HONORS & CONFERENCES

- **Certified AppSec Practitioner V2 (CAP) — 'Merit' Distinction (The SecOps Group, May 2026)** • APIsec Certified Practitioner — 92% Score (APIsec University, Jan 2026)
- **3rd Place — Cursor Hackathon (Jun 2026)** • Exhibitor — IEEE ISTUN CS Fair (May 2026) • Delegate — CSCON'26 Isik Univ. (Mar 2026) • Teknopark Istanbul Career Days (2026)
